

(For students admitted in 2011-12 under the 3-year degree)

## Curriculum for BEng in Industrial Engineering and Engineering Management

Two program sequences, namely Sequence A and Sequence B, are designed to take care of students admitted with different mathematics background. Sequence A is intended for students with AL Mathematics background, while Sequence B is for those without an AL Mathematics background who are required to undertake additional mathematics course(s).

### General Requirements

Students are required to complete the following general requirements for graduation in addition to program specific requirements:

*Required Courses in English Communication*

*Common Core Requirements*

*Required Course in Physical Education*

For details please refer to the section "General Requirements" on this website.

- (1) Students are required to complete and pass a prescribed training program within the normal length of study. Details of the program, its requirements and schedule will be announced on the website of the Industrial Training Center (<http://www.ust.hk/itc>) or website of the department in the first year Fall term. Training normally takes place in the Winter and Summer terms starting from the first year of study. For recording the overall training results, students are normally registered for the course in their last term of study.
- (2) Students admitted through the School-based Admission Scheme are not required to take COMP 1022P. They will take COMP 1004 (prior to 2013-14) instead.
- (3) Students admitted through the School-based Admission Scheme are not required to take ELEC 2410. They will take ELEC 1100 instead.
- (4) ENGG 4950 can be used to count toward the ENGG elective requirement. CENG 4720, CIVL 3230, ENGG 3000 and MECH 2800 are recommended Engineering electives.
- (5) ACCT 2020, ECON 2123, FINA 2203, MARK 2120 and MGMT 1110 are recommended electives.
- (6) Students admitted through the School-based Admission Scheme are not required to take IELM 1010 in the Fall term of the first year.

A minimum of 103 credits is required for the BEng program in Industrial Engineering and Engineering Management - Sequence A; and a minimum of 104 credits is required for Sequence B.
