

(For students admitted in 2011-12 under the 3-year degree)

120-Credit Program for Business Students Admitted Through the Early Admissions Scheme for Secondary Six Students

This 120-credit program is designed for students admitted through the Early Admissions Scheme for Secondary Six Students. These students are required to complete a minimum total of 120 credits which comprise courses required by the degree program and additional 15-18 credits (depending on the minimum total number of credits required by the degree program). For students enrolling in the Dual Degree Program in Technology and Management, they do not need to follow this 120-credit program.

Requirements of the degree program are published separately under the respective departmental section on this website. Courses specified for the additional credits are listed below.

Language Electives (6 credits)

A total of 6 credits of coursework from the following language courses:

			<u>Credit(s)</u>	
	LANG	1006**	Developing English	3
(1)	LANG	1121	Chinese for Non-Chinese Language Background Students II	3
(1)	LANG	1122	Chinese for Non-Chinese Language Background Students III	3
(1)	LANG	1123	Chinese for Non-Chinese Language Background Students IV	3
	LANG	1210	Japanese Language and Related Culture I	3
	LANG	1220	Arabic: a Key to the Middle East	3
	LANG	1310	French: World Language and Culture	3
	LANG	1320	German in the World of Science and Technology	3
	LANG	1330	Spanish and the Other America	3
	LANG	1410	Latin and the Legacy of the Roman World	3
	LANG	1420	Classical Greek and Its Impact in the Modern World	3
(1)	LANG	2120**	Chinese Business Communication II	3

Students can choose to replace one of these two language courses by a 3-credit free elective if any of the listed courses are required courses in their program of study.

Students who have completed EAE 01 or EAE 02 at another EAS participating university can count the credits toward the language requirement.

Note:

- (1) Students who have to take either LANG 1112 or LANG 1120 as a required course in the second year Fall term may elect LANG 1121/1122/1123 or LANG 2120 (prior to 2007-08) respectively to fulfill the language requirement. Those who have been exempted from LANG 1112 or LANG 1120 should seek prior endorsement from the School if they wish to take LANG 1121/1122/1123 or LANG 2120 (prior to 2007-08) to fulfill this requirement.

Mathematics Electives (3 credits)

Students should select an appropriate mathematics course as required by their program of study. They can replace the mathematics course by a free elective if their mathematics level attained at admission allows them to be exempted from the mathematics requirement.

Common Core/GNED Electives (6 credits)

A total of 6 credits of coursework from GNED courses or common core courses, provided that these courses are not requirements in the degree programs, and are not used to count towards the Common Core requirements.

Business Electives (0-3 credits)

<i>For Quantitative Finance Program</i>	<i>(0 credit)</i>
<i>For all other programs</i>	<i>(3 credits)</i>

****Remarks on course(s):**

- LANG 1006: The course was last offered in 2010-11 and was deleted subsequently.
- LANG 2120: The course was last offered in 2006-07 and was deleted subsequently.

For graduation, students are required to complete all courses required by their degree program and the additional 15-18 credits of courses specified above, and earn a minimum of 120 credits. All these courses count towards the calculation of the Graduation Grade Average (GGA) used for determining the class of honors of the degree award. For the purpose of calculating the GGA, courses in the students' first year of study will be given a weighting of 0.5, while those taken beyond the first year be given a weighting of 1.0.

Students following this 120-credit program are subject to the same set of academic regulations that are applicable to regular undergraduate students. Although this program requires a total of 120 credits for graduation, students may complete it in three years' time. This is possible through completing the summer program immediately after admission as EAS students, by taking courses in summer terms, or by undertaking slight credit overload in subsequent terms as approved by the School/Department.
