## Undergraduate Minor Program in Environmental Science

Except for those with major in Environmental Science (ENVS), any undergraduate students under the 4-year degree with an overall CGA of 1.85 or above may enroll in the Environmental Science Minor Program. Students must declare their intention to enroll in the Minor Program no earlier than the first regular term of their second year of study but no later than the last day of the add/drop period in the first regular term of their final year of study. Students who wish to withdraw from the Minor Program should apply before the last day of the add/drop period in the first regular term of their final year of study.

### Minor Requirements

To graduate with a minor in Environmental Science, students must have enrolled in the Minor Program, complete a minimum total of 18 credits and all of the minor requirements, as well as all the requirements of the major program of study.

For credit transfer, students can transfer a maximum total of 6 credits to the Minor Program.

Out of the total credits required by the minor program, at least 9 credits should be single-counted within the minor and are not used to fulfill any other requirements for graduation except the 120-credit degree requirement.
